## Cybersecurity Resources on PLI PLUS

PLI PLUS provides access to content in 25 different practice areas. One area of the law that has been rapidly developing in recent years is Cybersecurity. With the expansion of the internet — and the Internet of Things — more and more data is available and at risk. Lawyers need to understand the complex array of regulations, federal and state statutes, contractual norms and Executive Orders to help individuals and organizations stay protected.

**PLI PLUS has resources that help legal professionals to navigate:**

- General Data Protection Regulation (GDPR)
- Cybersecurity Information Sharing Act (CISA)
- FTC Regulations
- NIST Cybersecurity Framework
- SEC Disclosure Rules

**Below are some key resources on cybersecurity law:**

- [Cybersecurity Due Diligence Questionnaire](#)
- [Cybersecurity in Regulated Sectors](#)
- [Cyber Insurance](#)
- [Financial Services Cybersecurity](#)

## A Letter from PLI Manager of Library Relations Kay Mitchell

PLI hosted a Librarian Advisory Breakfast as part of the 112th Association of American Law Libraries Annual Meeting and Conference in Washington, DC.

In addition to sharing a meal, we had the chance to provide some information about current activities and solicit input about future plans for PLI PLUS. We showed a short demo of PLI PLUS, focusing on recent enhancements and quick tips to get the most out of the platform. We highlighted our newest practice areas, updates to advanced search, and our case law linking through our partnership with Fastcase. We also featured our book cover images and our extensive archive of course handbooks. Attendees shared helpful feedback with us, and we are already working on implementing some of the ideas we discussed.

We have a busy fall travel schedule and hope to see many of you soon.

Kay Mitchell
