

Staying current is easier than ever with Search Alerts on **PLI PLUS**

PLI has added **Search Alerts** to PLI PLUS so that lawyers, librarians, and legal professionals can stay up-to-date on legal developments. As part of your PLI PLUS subscription, you can now set up an alert and receive an email notification when new content is published by PLI Press on whatever topic you choose.

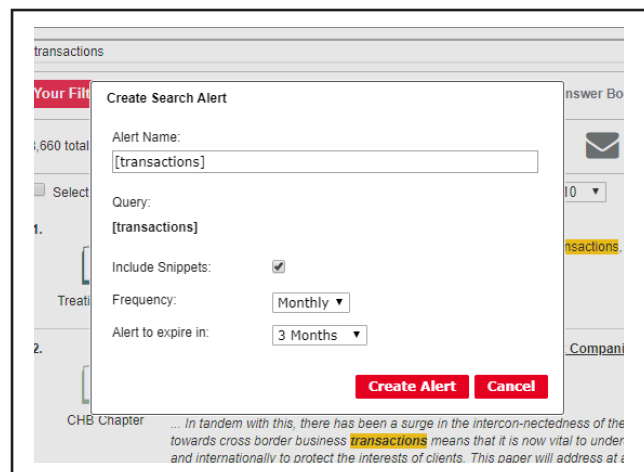

These alerts are available to all PLI PLUS subscribers for any search you run. We save you the step of having to refresh your research – instead, you will find an email in your inbox when new and relevant content is published.

Setting up Search Alerts:

After you've conducted a search, there is a bell icon within the **Document Management** tools near the top-right of the screen.

Clicking on the bell icon allows you to create an alert. Here, you can customize several features for your alert, such as the name of your Alert, whether or not you'd like to include snippets, how often you'd like to receive updates, and when you'd like to stop receiving updates for your alert.

Once you click **“Create Alert”**, a confirmation window will appear and you're all set! You'll begin to receive search alert emails once content that matches your search criteria is added to PLUS.
